

SUSTAINABLE GROWTH ANALYSIS

FACTORS A COUNTRY SHOULD FOCUS
ONTO SUSTAIN GDP/ CAPITA

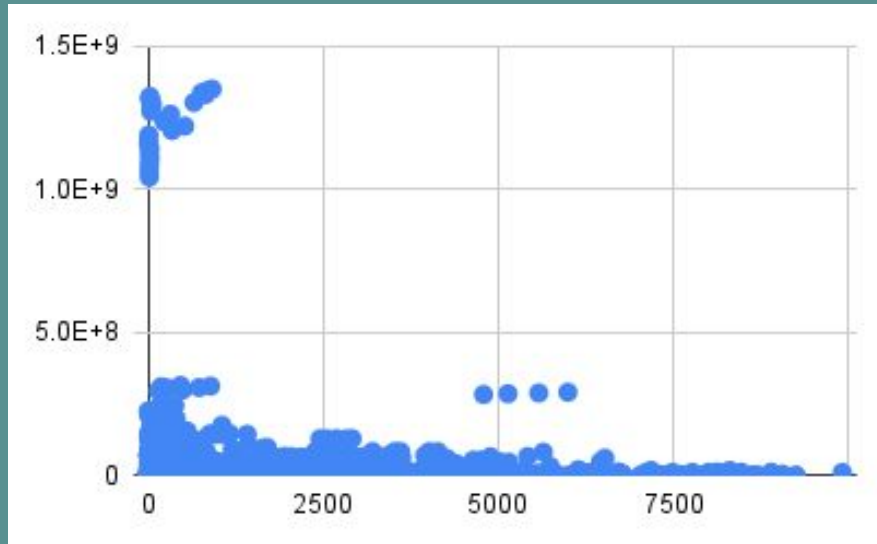

What factors a country should focus on to sustain GDP/ Capita

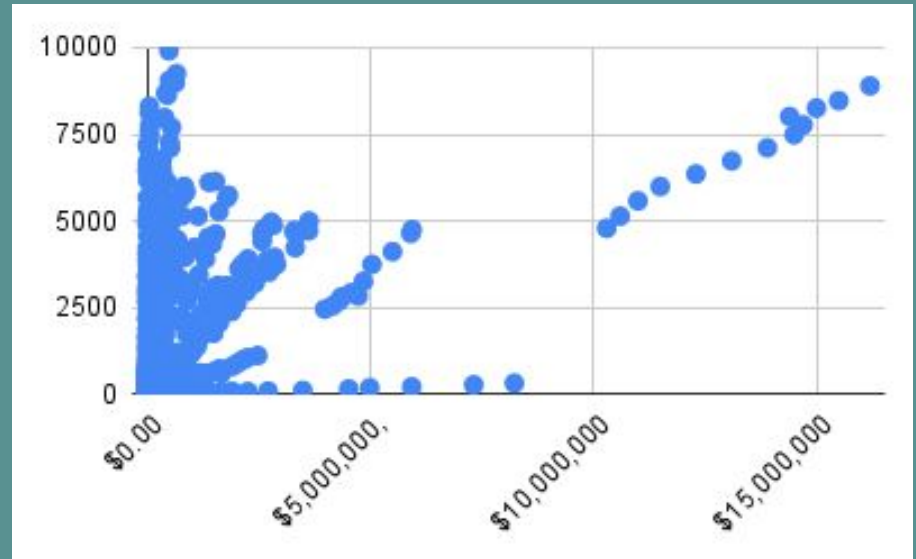

- Asia is known as largest continent in the world, and consumption of energy is highest but tourist inbound is less as comparison to other regions
- We can see that there is no strong relation between tourism and gdp but we can consider it that improve also
- After analysis it can clearly see that many regions have good health status and some have good relation for tourist but to improve sustainable development we need to introduce some new medical expertise like in Countries of Middle east so that birth rate can also increase
- To promote good tourist spots like EUROPE in other we need to provide more exploration

Data used

Relation between health
and population

Relation between GDP and health

Executive Summary

- There are many countries of middle east which require proper development in medical and health related issues and providing people proper usages of energies so that there grp can increase.
- As of africa also they have high birth rate but also highest infant mortality rate and this also affecting the gdp so to control this medical and providing them proper facility can help
- Asia is known as the largest continent but the tourist rate is lower because tourist plays important role in growth of any nation so to there growth countries have to promote their culture so like Europe everyone can visit hese palces
